Re: Docket No. PHMSA-2009-0390; Colonial Pipeline Company; Certification

Dear Mr. Mayberry,

On November 25, 2019, the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS) granted a Special Permit to Colonial Pipeline Company (Colonial) waiving compliance from recordkeeping requirements in 49 Code of Federal Regulations (CFR) 195.310 for two (2) segments of Colonial's Line 01 pipeline. The Colonial pipeline segments subject to this permit are in (1) Acadia, St. Landry, Point Coupee, and West Feliciana Parishes, Louisiana; and (2) Fulton, DeKalb, and Gwinnett Counties, Georgia.

Pursuant to Condition 22 of the Special Permit, within one (1) year of the grant of the Special Permit, a senior executive officer, vice president or higher, of Colonial must certify in writing the following:

- a) That Colonial's Line 01 pipeline in ***special permit segments 1 and 2*** will meet the conditions described in this Special Permit,
- b) That Colonial's written O&M manual has been updated to include all additional O&M requirements of this Special Permit; and
- c) Colonial has implemented a system to collect and preserve all documentation required by 49 CFR Part 195, including, but not limited to, pressure test documents required in 49 CFR 195.310 for the Colonial Pipeline system.

Additionally, pursuant to Condition 22, Colonial must complete and send a copy of the certification required in Condition 22 with the required senior executive signature and date of signature to the PHMSA OPS Associate Administrator with copies to the Director, PHMSA Southern Region and the Director, PHMSA OPS Engineering and Research Division.

This letter certifies that all of the requirements in Condition 22 of the Special Permit as outlined above have been met by Colonial.

If you have any questions or require additional information, please do not hesitate to contact me.

Respectfully,

DocuSigned by:
Wesley R. Dunbar
